*Inspired by
the Beauty of Nature*

We travel the world to seek out the beautiful woods and stones that inspire our luxury vinyl flooring. In the hands of our talented design team, those woods and stones are used to craft flooring of different colors, textures and character, providing stylish options for a variety of interior design aesthetics.

Bring the beauty of nature into your home with a floor you'll love for a lifetime.

Lovingly Crafted For Your Home

Hawaiian koa. French oak. Greek and Italian marble.

Our product-design team travels the world curating the natural materials that inspire our flooring. Through craftsmanship, artistry and attention to detail, they capture the unique characteristics of wood and stone in exquisite detail, in some cases applying techniques such as staining, brushing and scraping to create the perfect look.

Every design is a Karndean original, each with a story as unique as your style.

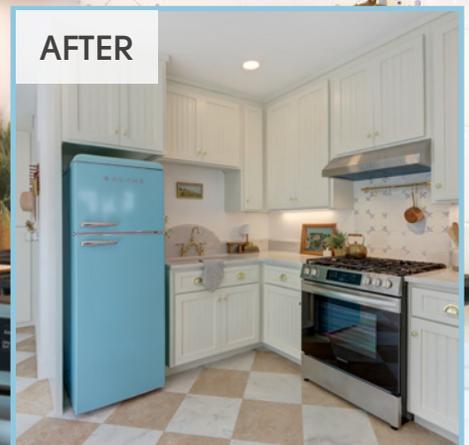

■ Natural Koa RKP8122

Designer. Carpenter. *Award-winning TV host.*

Ty Pennington is a true jack-of-all-trades who shares our passion for design – and now we're excited to team up, as he offers his distinctive taste and decades of experience to help you create beautiful spaces.

BETTER BY
design

Pet-friendly

Muddy paws or household accidents – Karndean is scratch-resistant, waterproof and easy to clean.

Kid-friendly

Enjoy the peace of mind of a safe, comfortable space to play.

Durable

K-Guard+® surface treatment protects against everyday wear and tear.

Waterproof

Our flooring is impervious to spills and splashes – it won't swell, warp or crack when exposed to water.

Phthalate free

Karndean flooring is phthalate-free and safe for your home.

Low maintenance

Sweep with a broom, then mop with a pH neutral solution to clean. No harsh chemicals, waxing or machinery are needed.

Quieter spaces

Our rigid core and loose lay flooring reduces noise to lower floors by up to 25 dB – perfect for upstairs bedrooms and playrooms.

Lifetime warranty

Buy with confidence. Your Karndean floor is backed by a lifetime residential warranty.

From Our Home...

It all began in 1973 when a former flooring installer created a small business from his family home.

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees — many who are still working with us today — these years bring back many fond memories. Today, Smokey embodies the shared qualities of a Great Dane and a Karndean floor - unmistakable, protective, dependable, loyal and a pillar of the household.

Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

...to Your Home

Designing your home can be overwhelming. There are many elements that must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?

We begin a new design with an inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a throw pillow or

the perfect paint chip? Or is it lifestyle, a place where you can dance in your pajamas and your babies (both two- and four-legged) can roll around and play?

No matter what drives you, Karndean was created with your needs in mind. We see flooring differently and by combining our original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a color and measuring the room. Let's get started!

Personalized recommendations

Answer a few quick questions about your project to receive instant recommendations for your new floor.

Scan the QR code to get started.

The Promise of a Better Tomorrow

Sustainability is a journey, and there are no shortcuts. But we know now's the time for everyone to begin taking bigger steps. Ours is a promise to think differently, act decisively, and create real change.

It's a promise to Evolve.

Confront climate change

Reducing our carbon footprint through energy efficiency and use of renewable energy.

Reducing GHG emissions

The Science Based Targets initiative (SBTi), an international corporate climate-action organization, has approved our targets for greenhouse gas emissions reductions, validating that our near-term targets are aligned with the reductions necessary to prevent catastrophic global warming:

We are committed to reducing absolute Scope 1 and Scope 2 emissions 42% by 2030.

Renewable energy and energy efficiency

All manufacturing facilities have installed or are investing in renewable energy generation and energy-efficient technology:

- Solar panels
- Locally sourced biomass for heating
- Closed-loop water system on production line

Health & well-being

Ensuring the health and safety of those involved with manufacturing and use of our products.

Safe products

- Free from heavy metals and unsafe phthalates
- FloorScore® certified for post-installation indoor air quality
- Rated A+ for volatile organic compounds
- Water-based or solvent-free adhesives with very low VOC emissions

Sustainable use of resources

Conserving natural resources and using post-industrial recycled materials.

Recycled material

All products use as much as 50% recycled PVC in the backing layers, with material derived from post-production waste such as offcuts.

Inclusion & diversity

Nurturing an equitable, inclusive and diverse workplace culture through engagement and education.

Supply chain transparency

Including third-party certifications for environmental and social responsibility.

ISO 14001

All factories that manufacture our products are certified to the ISO 14001 environmental standard, which provides a framework for measuring and reducing environmental impact.

Safe working conditions

We commission independent factory audits for:

- Working conditions
- Hours worked
- Workplace health and safety

Environmental Product Declarations

We have environmental product declarations for all of our products – independently verified reports based on life cycle assessments of environmental impact.

Education

Educating employees about the importance of sustainability, helping them understand what role they play and increasing likelihood of achieving our goals.

Our products are free from heavy metals and unsafe phthalates, as well as Eurofins Indoor Air Comfort (Gold) and FloorScore® certified for post-installation indoor air quality, with third-party testing rating them A+ for volatile organic compounds. Our adhesives are either water-based or solvent-free with very low VOC emissions.

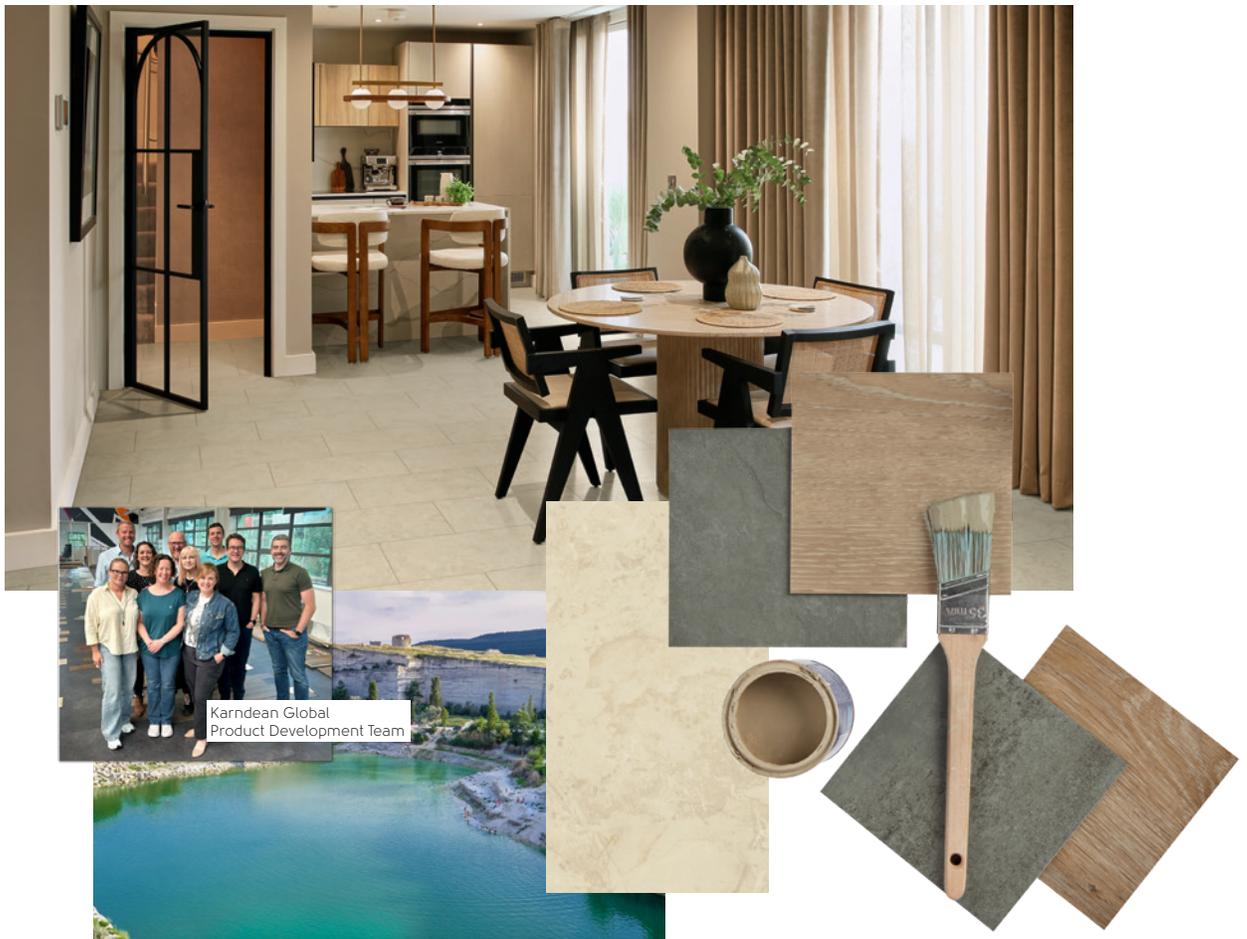

KARNDEAN DESIGN AESTHETICS

The Synthesis of Style + Mood

Your home is an expression of your style. It's why we travel the world, seeking out the beautiful woods and stones that inspire our luxury vinyl flooring.

In the hands of our talented design team, those woods and stones are used to craft flooring of different colors, textures and character, providing stylish options for a variety of interior design aesthetics.

Every wood and stone design is a Karndean original, each as unique as your style.

CREATE

A SPACE

that expresses your style –
and reflects your lifestyle.

Warm Brushed Oak RKP8215

PRANA

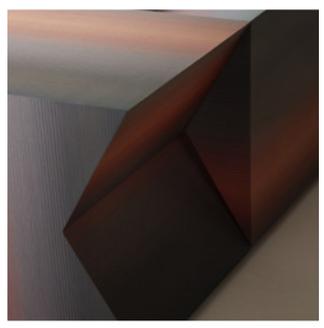

The character, color and texture of our original flooring designs are carefully chosen to complement larger interior design aesthetics – holistic perspectives that shape the look, feel and function of an entire space.

Our design aesthetics are continually influenced by the world around us. Changing behaviors, attitudes and values are represented through design choices for colors, textures, shapes and forms.

Which design aesthetic matches your style – and your lifestyle?

Use it to choose a floor you'll love for a lifetime.

PRANA

In yoga, prana refers to breath, a life-sustaining force. Just as breathing exercises bring a sense of calm and relaxation, our homes are where we retreat to decompress from everyday deadlines and to-do lists. They're where we continually return for renewal, physically and mentally. In a larger sense, they offer comfort, stability and balance against the jarring emotional toll of the world's crises and conflicts, allowing us to maintain a healthy equilibrium by providing familiar spaces filled with joy, love and simple reminders of what matters most.

BALANCE | COMFORT | RENEWAL

Design Principles

- Earth tones
- Texture
- Coziness

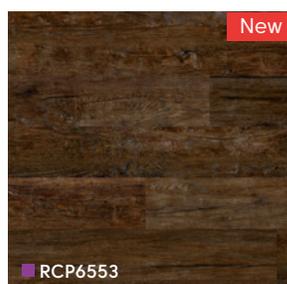

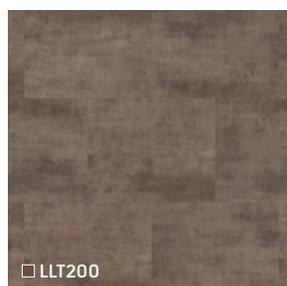

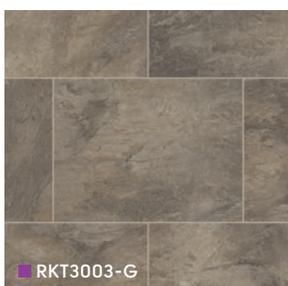

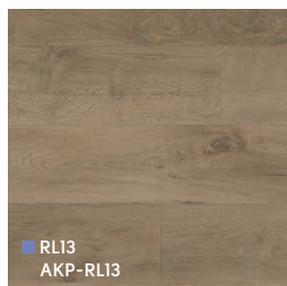

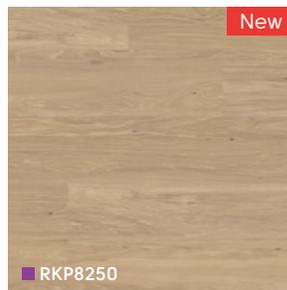

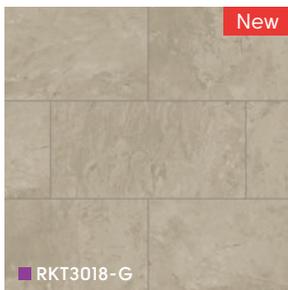

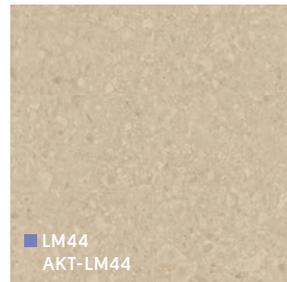

Emotional Benefits

- Achieve balance
- Space to recharge
- Sense of security

Flooring Styles

- Warm, natural-toned wood looks
- Rustic and weathered
- Slate and concrete looks

IN CTRL

Technology is seamlessly integrated with everyday life, allowing us to remain connected in the ways we choose – or to tune out the noise entirely. A constant presence, technology remains sleek and unobtrusive in form, each new iteration more refined than the last. In our homes, the influence translates to an “optimization” of the space, where every design choice is intentional, favoring fine-tuned function and understated luxury over excess and indulgence. The elegant minimalism is an exercise in control, creating a sense of order when life, and the world at large, can be loud and chaotic.

CONFIDENCE | ASSUREDNESS | PURPOSE

Design Principles

- Minimalist
- Smooth textures
- Sleek styling
- Clean lines

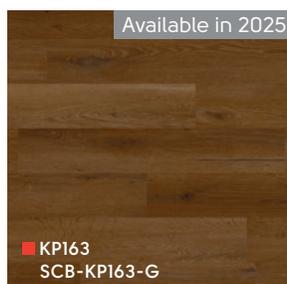

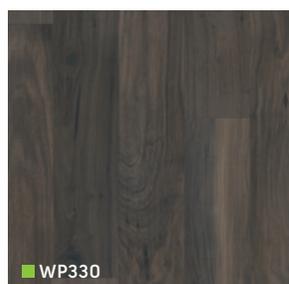

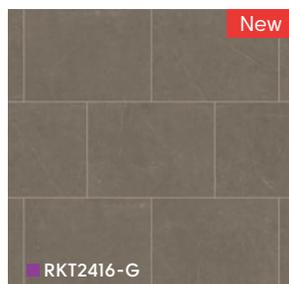

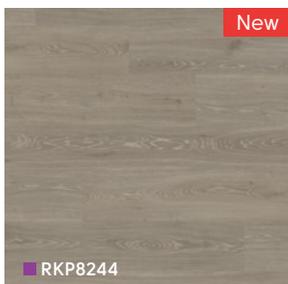

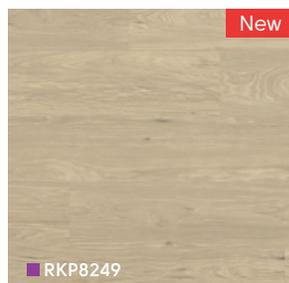

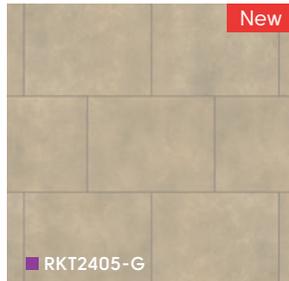

Emotional Benefits

- Space to focus
- Minimize distraction

Flooring Styles

- Clean and neutral
- Minimal variation

MIX + MAX

Designed to stimulate the senses and spark the imagination, these spaces mirror the influence of fully immersive experiences, offering an escape from the same-old, same-old. Rich with striking patterns, mood-enhancing colors and bold juxtapositions, the maximalist ethos also reflects a niche of social media influencer culture, one that celebrates the joy of indulgence. Mix + Max disregards conventional rules to make a statement loud and clear, putting the fun and fearlessness of the creative spirit on full display.

INSPIRATION | ESCAPE | STIMULATION

Design Principles

- Maximalist
- Vibrant colors
- Bold patterns

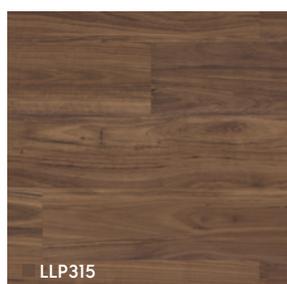

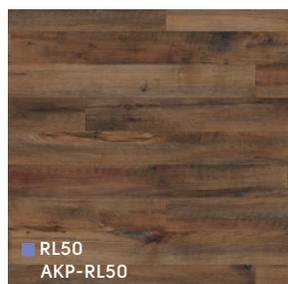

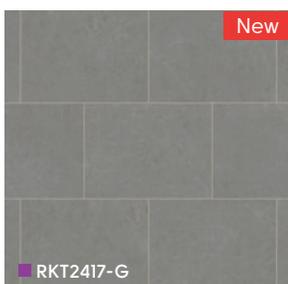

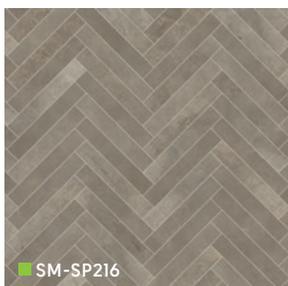

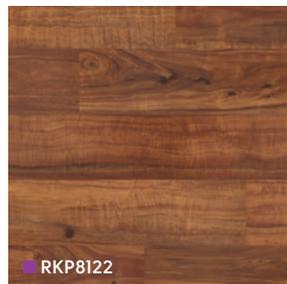

Emotional Benefits

- Inspire joy
- Enhance mood
- Stimulate imagination

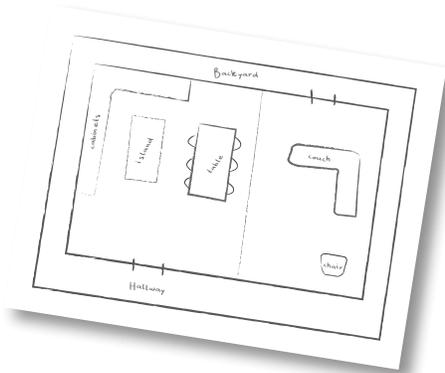

Flooring Styles

- Traditional looks to ground the space
- Timeless, recognizable patterns (chevron, herringbone)

Create More Than a Floor,
Create a Designfloor

1

Imagine your space

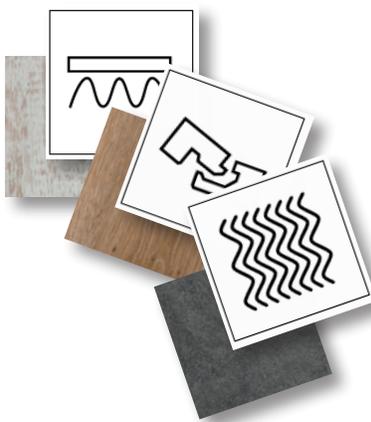

Something as simple as drawing a picture of your space will put you in a creative mindset.

2

Design ideas

Take inspiration from our installation patterns guide to design your floor.

3

Which installation format and color?

With more than 180+ colors across three installation formats, we're sure to have a floor that fits your design style.

1. Imagine Your Space

On the next page, draw the space that you will be updating by following the example below.

Start with the shape of your space and entry points.

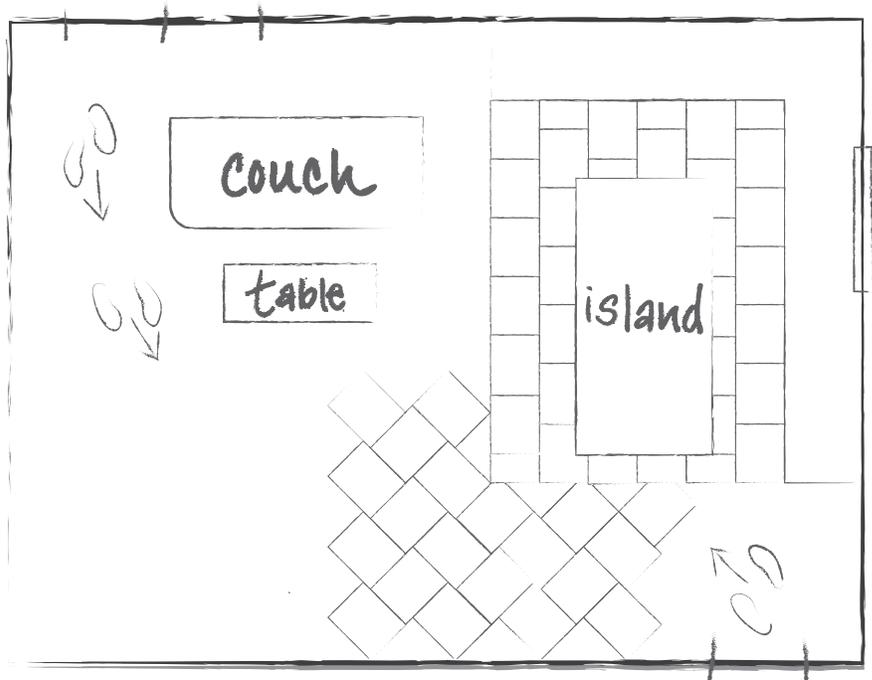

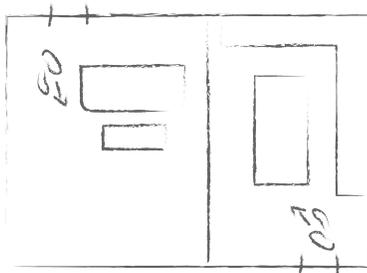

How do you walk through the room?

Are there any adjoining rooms?

Sketch fixtures in your space.

Take your space from sketch to reality.

■ Grey Riven Slate ST16 with DS10 3mm design strip

*Now it's
your turn...*

Design Tip

When planning the design of your floor, think of your most common footpath. Have your local retailer install the floor in that direction to guide guests throughout the space.

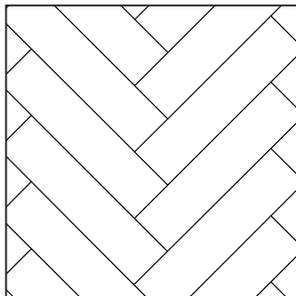

2. Design Ideas

Choosing Your Installation Pattern

It's not just the floor you choose, but the direction you lay it that makes a lasting impression. So how do you know which way you should lay your floor? Keep these pattern options in mind as you browse our three product constructions, as select floors cannot be laid in all of these patterns. Use our pattern guide for inspiration or to share with your local retailer.

More Design Ideas

Choosing Design Components

Add a personal touch to your gluedown floor with our variety of design components. See our offering starting on page 148.

GLUEDOWN

Design Strips

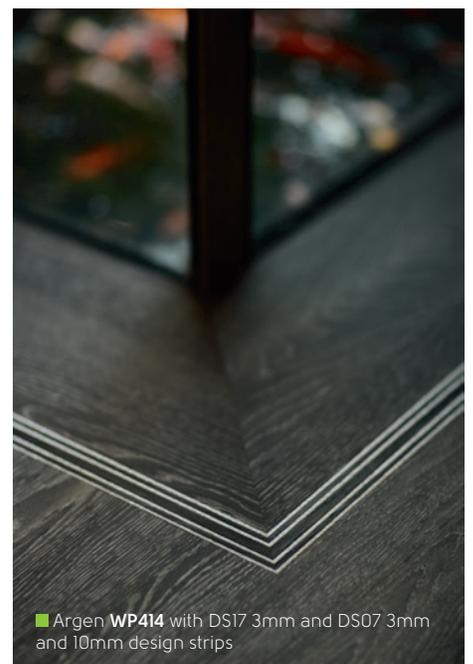

Design strips are narrow pieces of luxury vinyl tile which can be installed between our planks and tiles or used to create a slim border or inlay. They allow you to add visual interest to the design of your floor by adding a grout effect between tiles or between planks for a ship lap effect. The beauty of our strips versus real grout is that they won't stain or fade, and they don't have to be sealed.

Design strips are available in a variety of colors and widths. The wider the strip or bolder the color, the more impact. The choice of color is completely up to you.

■ Naturale Ceppo LM45 with DS10 3mm design strip

Using design strips to create a border is also a popular way to frame your room. Use three or more strips to create a tramline border or keep it simple by using just one strip as a keyline border. Our brochure has examples throughout of how design strips can be used by themselves or in multiples to add a border around the room.

■ Argen WP414 with DS17 3mm and DS07 3mm and 10mm design strips

Design Tip

Choose a contrasting strip color to make the color of the product stand out.

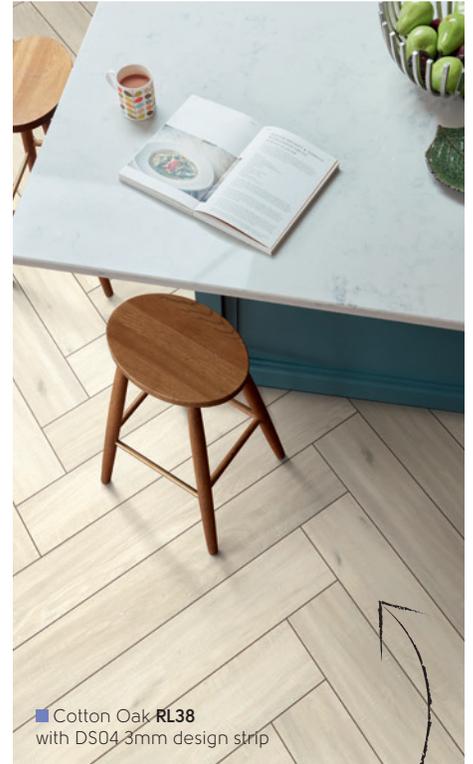

Decorative Borders

To add a finishing touch to your design or to frame permanent fixtures, like a kitchen island, consider incorporating a decorative border.

Our decorative borders typically feature two colors: the background color will match your main floor and a contrasting color as the pattern within the border.

Some floors have more than one corresponding border. Use our colorful range key and product code listings on page 150 to discover available options.

If you don't see a pre-designed border that suits your floor or your style, ask your retailer about creating a custom border.

Design Tip

Add design strips between planks for a grouted look that adds style to any space.

Looking for a custom design?

If you're looking for a completely unique feature, your retailer can help you sketch out your idea and create a custom feature design.

Installation Formats at a Glance

Our flooring is available in three installation formats: rigid core, gluedown and loose lay.

Rigid core

Choose rigid core when...

- You want superior acoustics, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You want to install over an existing floor such as ceramic tiles or floorboards, or uneven subfloor.
- You have a damp subfloor, sometimes found in new builds or extensions.

See page 28 for more details.

-  Click-locking mechanism
-  Reduces noise transfer
-  Quick and easy to install
-  Installs over most existing hard floors

Gluedown

Choose gluedown when...

- You want to create your floor, with different laying patterns, design strips and decorative borders.
- You want to be able to mix stone and wood designs and create a completely bespoke floor.
- You have a completely flat, dry subfloor, prepared by a flooring professional.

See page 30 for more details.

-  Individually replaceable
-  Design capabilities
-  No expansion gap required
-  Individual, glued down planks and tiles

Loose lay

Choose loose lay when...

- You want to reduce noise transfer, such as in loft conversions or upstairs rooms.
- You want a quick installation.
- You have a smooth or damp subfloor, sometimes found in new builds or extensions.

See page 32 for more details.

-  Individually replaceable
-  Quick and easy to install
-  Reduces noise transfer
-  K-Wave® friction grip backing

■ Tortora Breccia Marble RKT3018-G

3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are and how you know which one is right for you.

RIGID CORE

We offer five industry-leading ranges of rigid core: Art Select, Korlok Select, Korlok Reserve, Van Gogh and Knight Tile.

Rigid core is a type of floating floor that clicks and locks into place and can be floated over most existing hard floors - no adhesive necessary.

An ideal alternative to laminate and engineered hardwood floors, Karndean Designflooring rigid core offers realistic visuals with the durability and waterproof qualities of luxury vinyl.

Why would you want a rigid core floor?

Floats over existing hard floors:

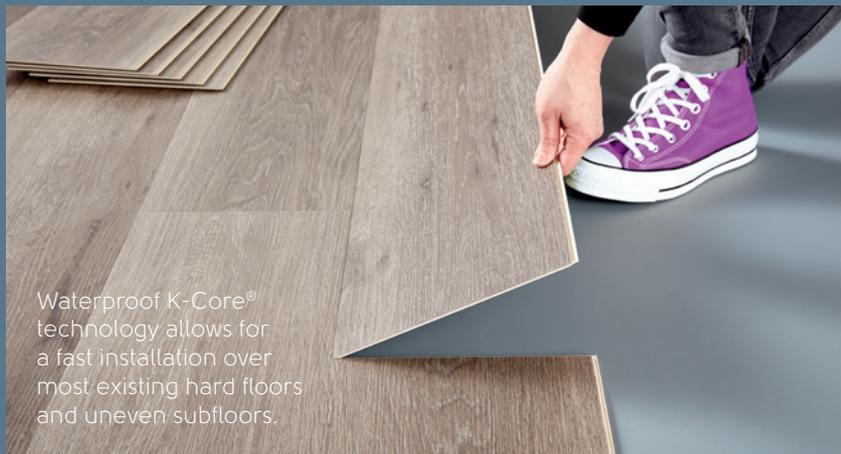

Rigid core can be floated over most existing hard floor coverings.

Acoustic qualities: The premium, pre-attached acoustic foam backing reduces noise transfer to rooms below, making it perfect for upstairs bedrooms, playrooms or attic/loft conversions.

Quick and easy to install: Click-locking systems allow the installer to quickly drop and lock planks together, meaning less upheaval and disruption to everyday life.

Waterproof K-Core® technology allows for a fast installation over most existing hard floors and uneven subfloors.

3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are and how you know which one is right for you.

GLUEDOWN

Our gluedown ranges are:
Art Select, Van Gogh, Opus and Knight Tile.

Lorenzo Warm Oak RL51

Why would you want a gluedown floor?

-  **Design options:** Our widest range of designs, colors, textures and sizes.
-  **Personalization:** With our gluedown ranges, you have complete control over the look of your floor, from the lay pattern to the incorporation of our design strips and borders.
-  **Individually replaceable:** Ability to replace individual planks and tiles.
-  **Glued down:** Planks and tiles are permanently secured to the subfloor.

Because gluedown planks and tiles are installed individually, these products offer the highest level of personalization. This allows you to create a layout and design that makes your home more stylish and functional, while remaining affordable and faster to install than other types of hard surface flooring.

3. Choose Your Format

While any of our formats can be installed in any room of the home, you may be wondering what the differences are and how you know which one is right for you.

LOOSE LAY

Karndean LooseLay luxury vinyl is designed for fast, easy installation. With our K-Wave® friction-grip backing to hold the flooring in place, only minimal adhesive is required around a room's perimeter. Karndean LooseLay is engineered with SureFit™, proprietary technology that provides dimensional stability, eliminating the need for expansion gaps and transition strips.

Design possibilities are virtually limitless. Karndean LooseLay is easy to cut, allowing you to create custom designs that showcase your unique style. Individual planks and tiles are also easy to remove and replace if damaged by sliding furniture or heavy objects.

□ Character Walnut LLP315

Loose lay also provides the most cushion compared with our other installation formats.

Why would you want a loose lay floor?

Acoustic qualities: Our floating floors help to reduce noise transfer to the room below, perfect for playrooms, children's bedrooms or attic/loft conversions.

Quick and easy to install: Benefit from minimal disruption and a quick installation.

Minimal subfloor preparation: This varies by the type of floor you currently have.

What's great about loose lay not being fully adhered to your subfloor is that if you need to replace an individual plank or tile, it is quick and easy to do so!

□ Neutral Oak LLP307

□ Sterling Oak LLP354

Design your dream floor at home!

Try our Floorstyle visualizer www.karndean.com/floorstyle.

Warm

Warm-toned floors tend to align more with traditional, timeless décor styles and are sure to create an inviting atmosphere.

Natural Koa RKP8122

Neutral

A neutral floor creates a clean backdrop to design the rest of the space. If you frequently like to change your décor, a neutral floor allows for the widest amount of options.

French Oak VGW85T | SCB85

Cool

Cool-toned floors best complement contemporary and modern styles and are sure to add drama and sophistication to any room in your home.

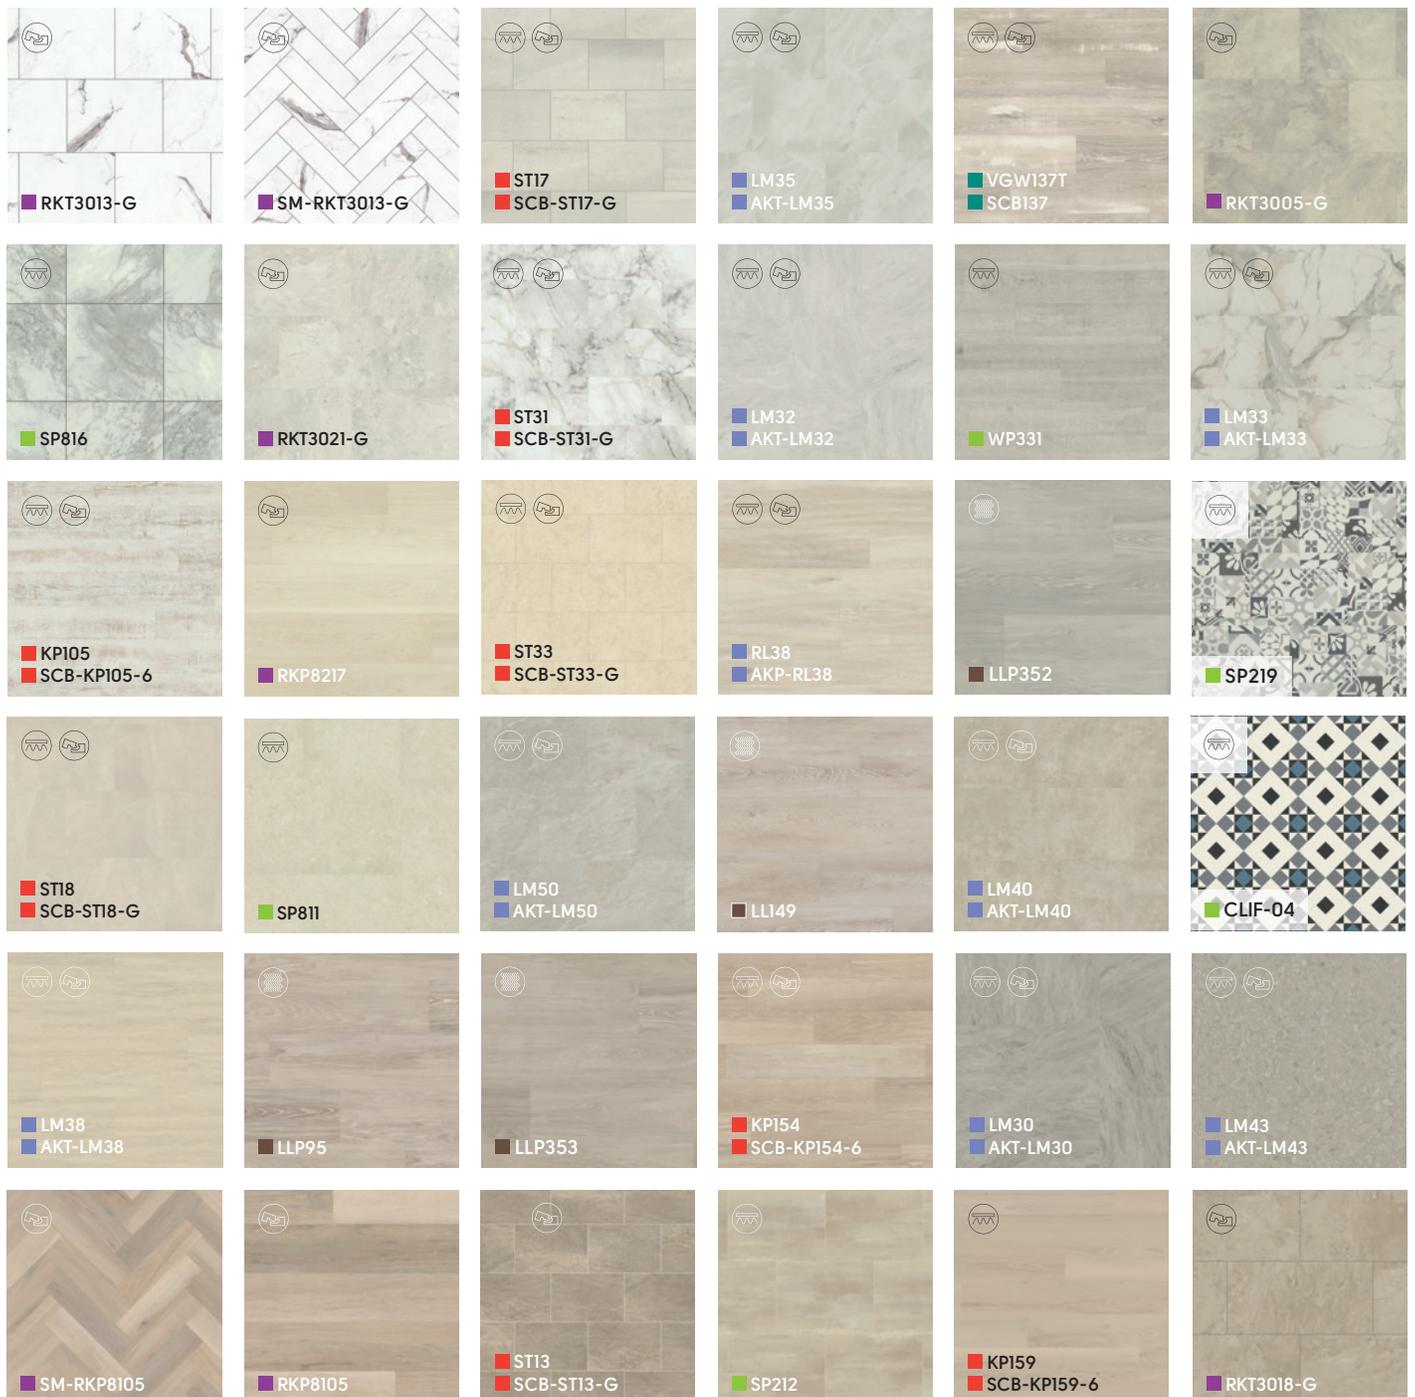

Grano WP311 and Carbo WP318

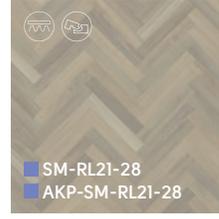

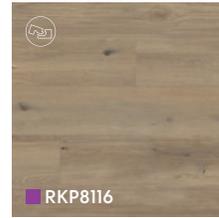

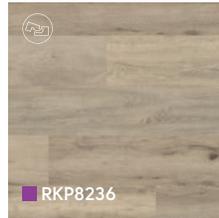

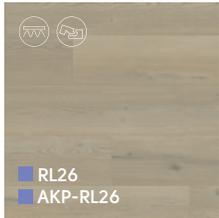

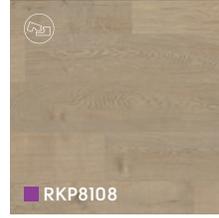

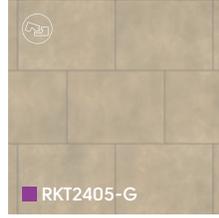

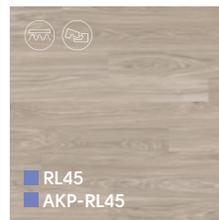

4. Choose Your Color

Organized from light to dark, choose the color that fits the vision of your new space.

■ Art Select |
 ■ Korlok |
 ■ Van Gogh |
 ■ Opus |
 ■ Knight Tile |
 ■ Karndean LooseLay

 = available in GLUEDOWN product |
  = available in RIGID CORE product |
  = available in LOOSE LAY product

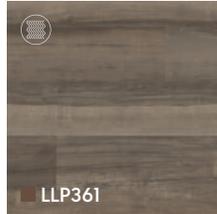

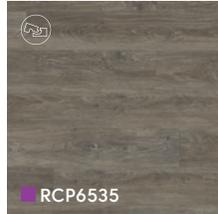

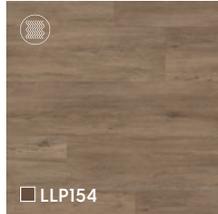

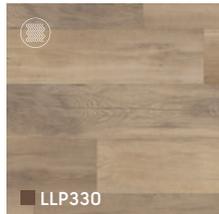

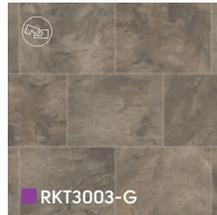

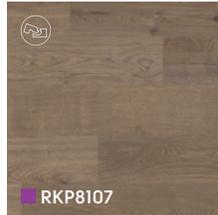

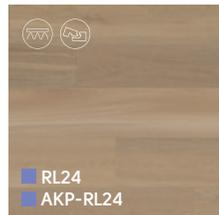

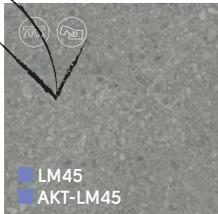

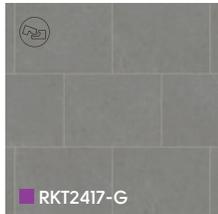

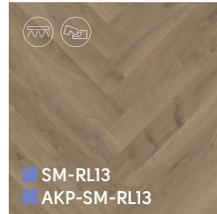

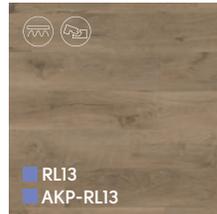

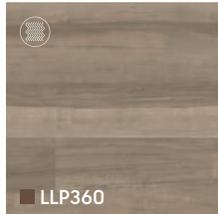

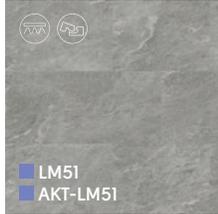

Design Tip

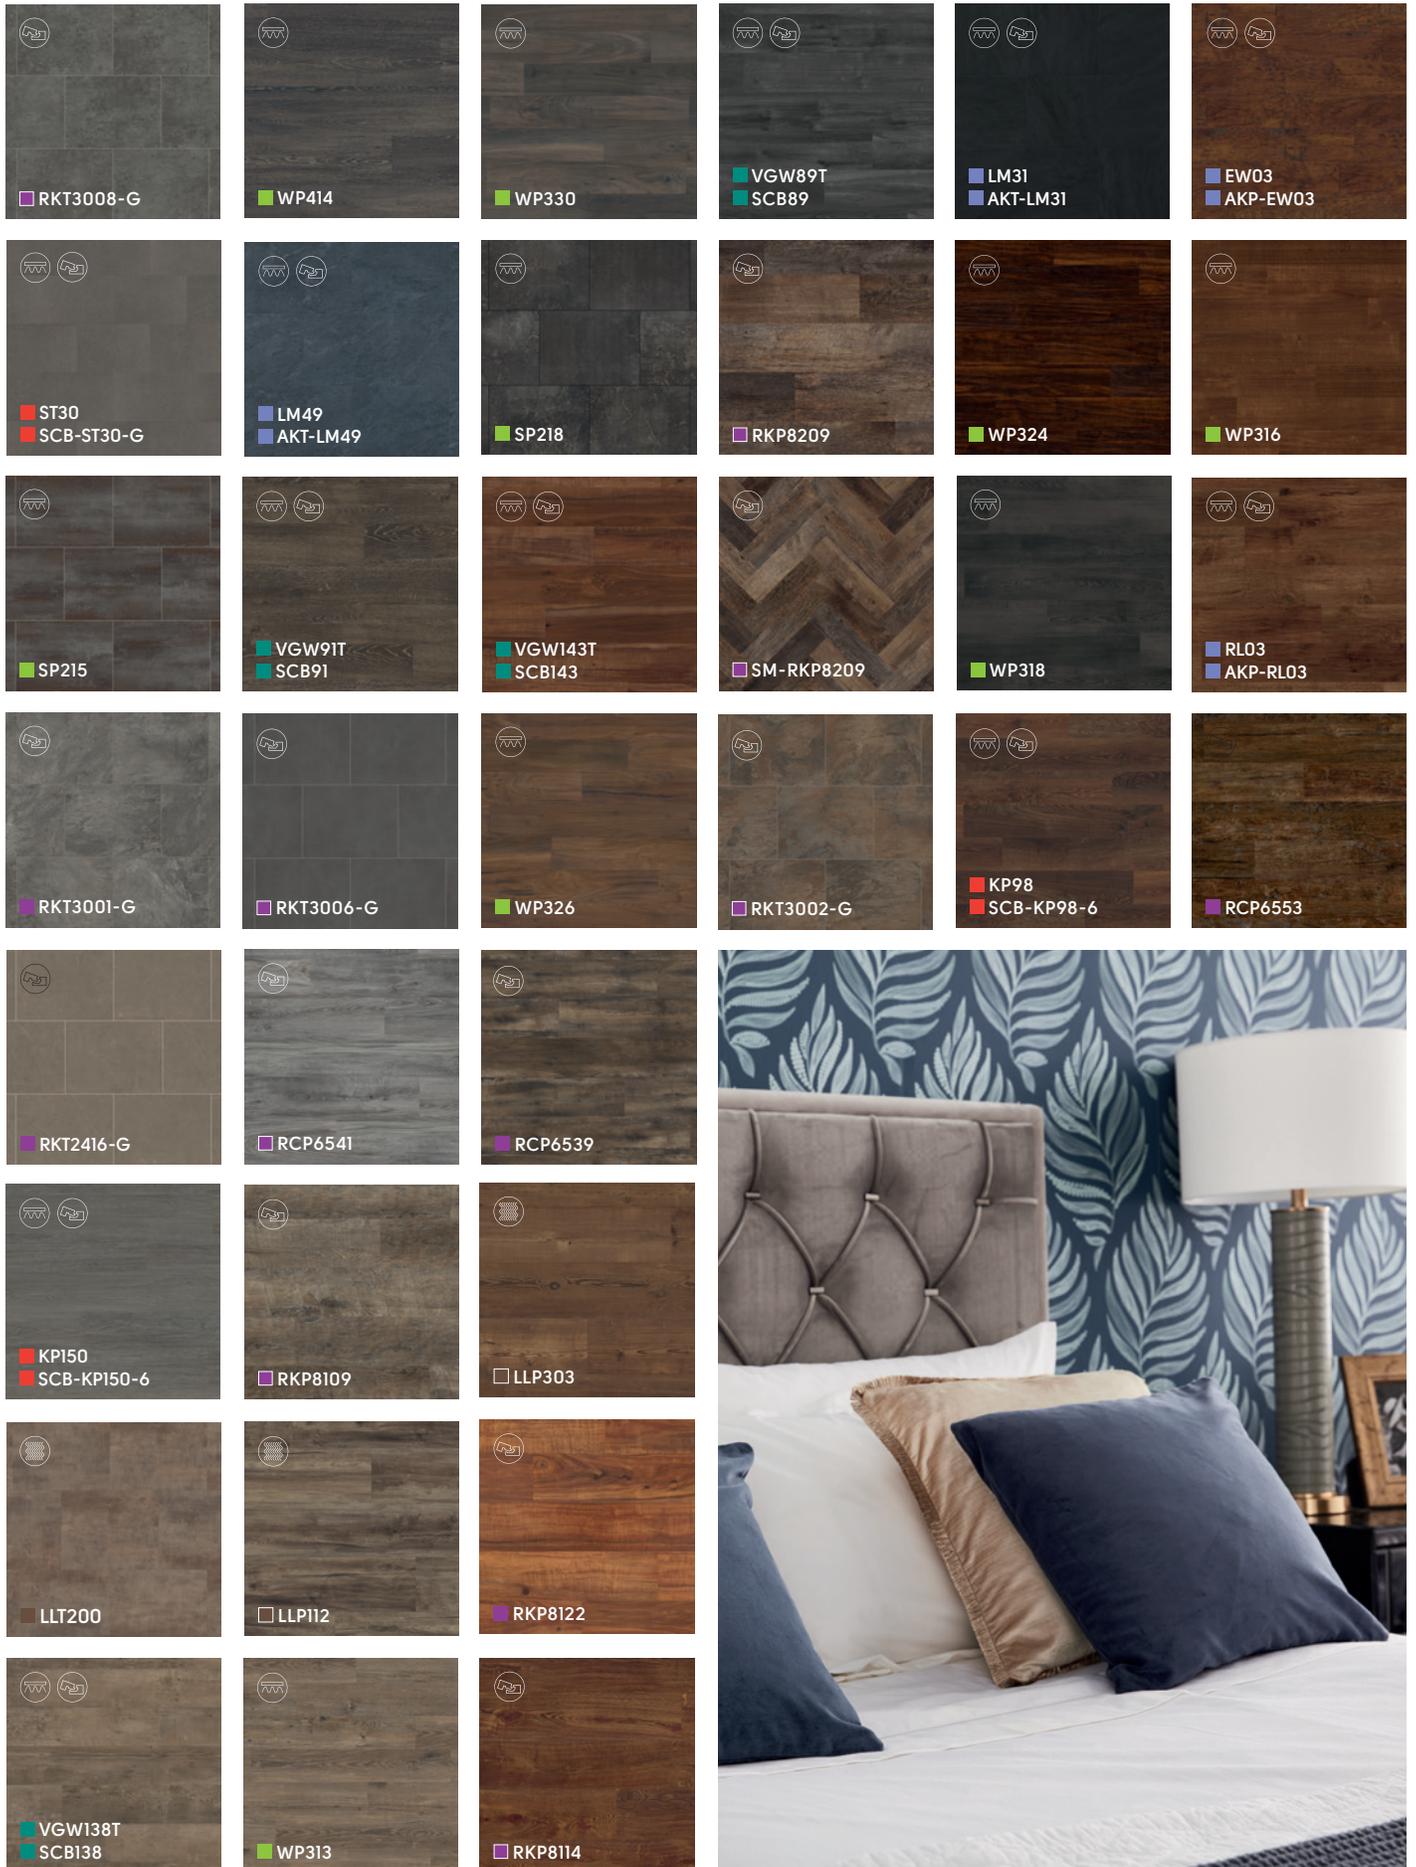

Inspired by reclaimed planks from an old wind-powered sawmill in Amsterdam. The muted taupe color offers a rustic feel and is a great match to teals and blues.

Design Tip

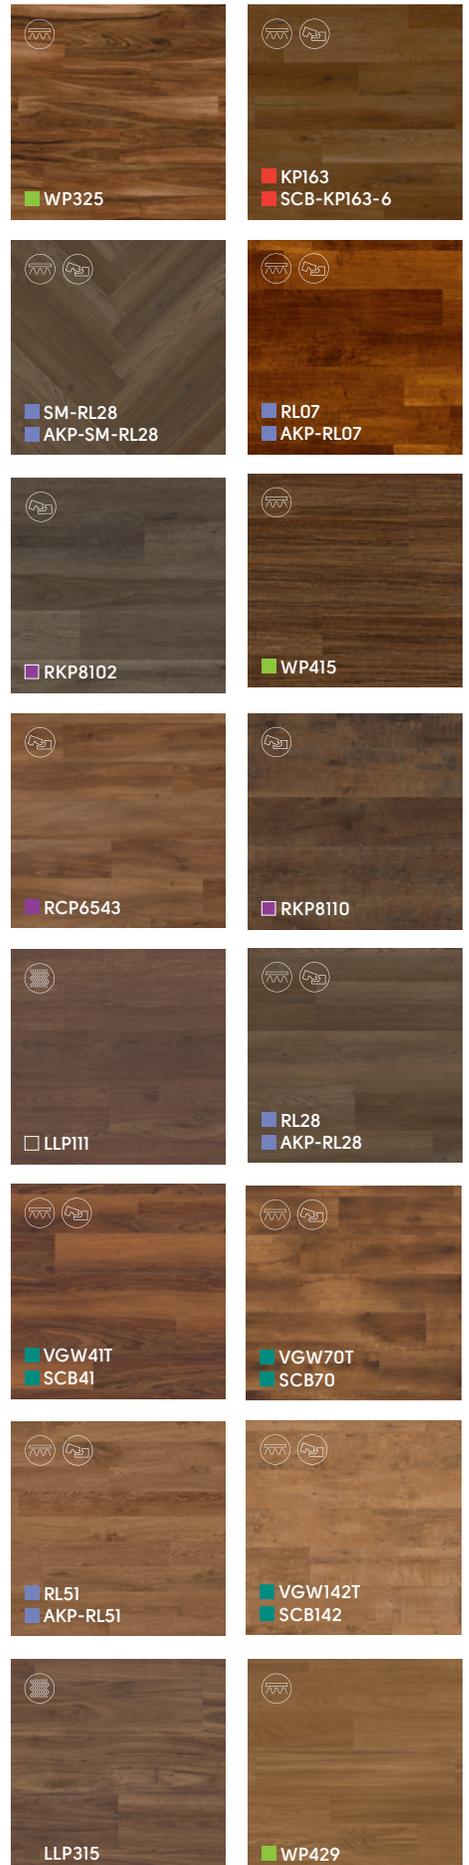

Inspired by a terrazzo-like stone sourced from an Italian quarry, *Naturale Ceppo* is an icy blue-grey design that makes a crisp and fresh statement in large tiles.

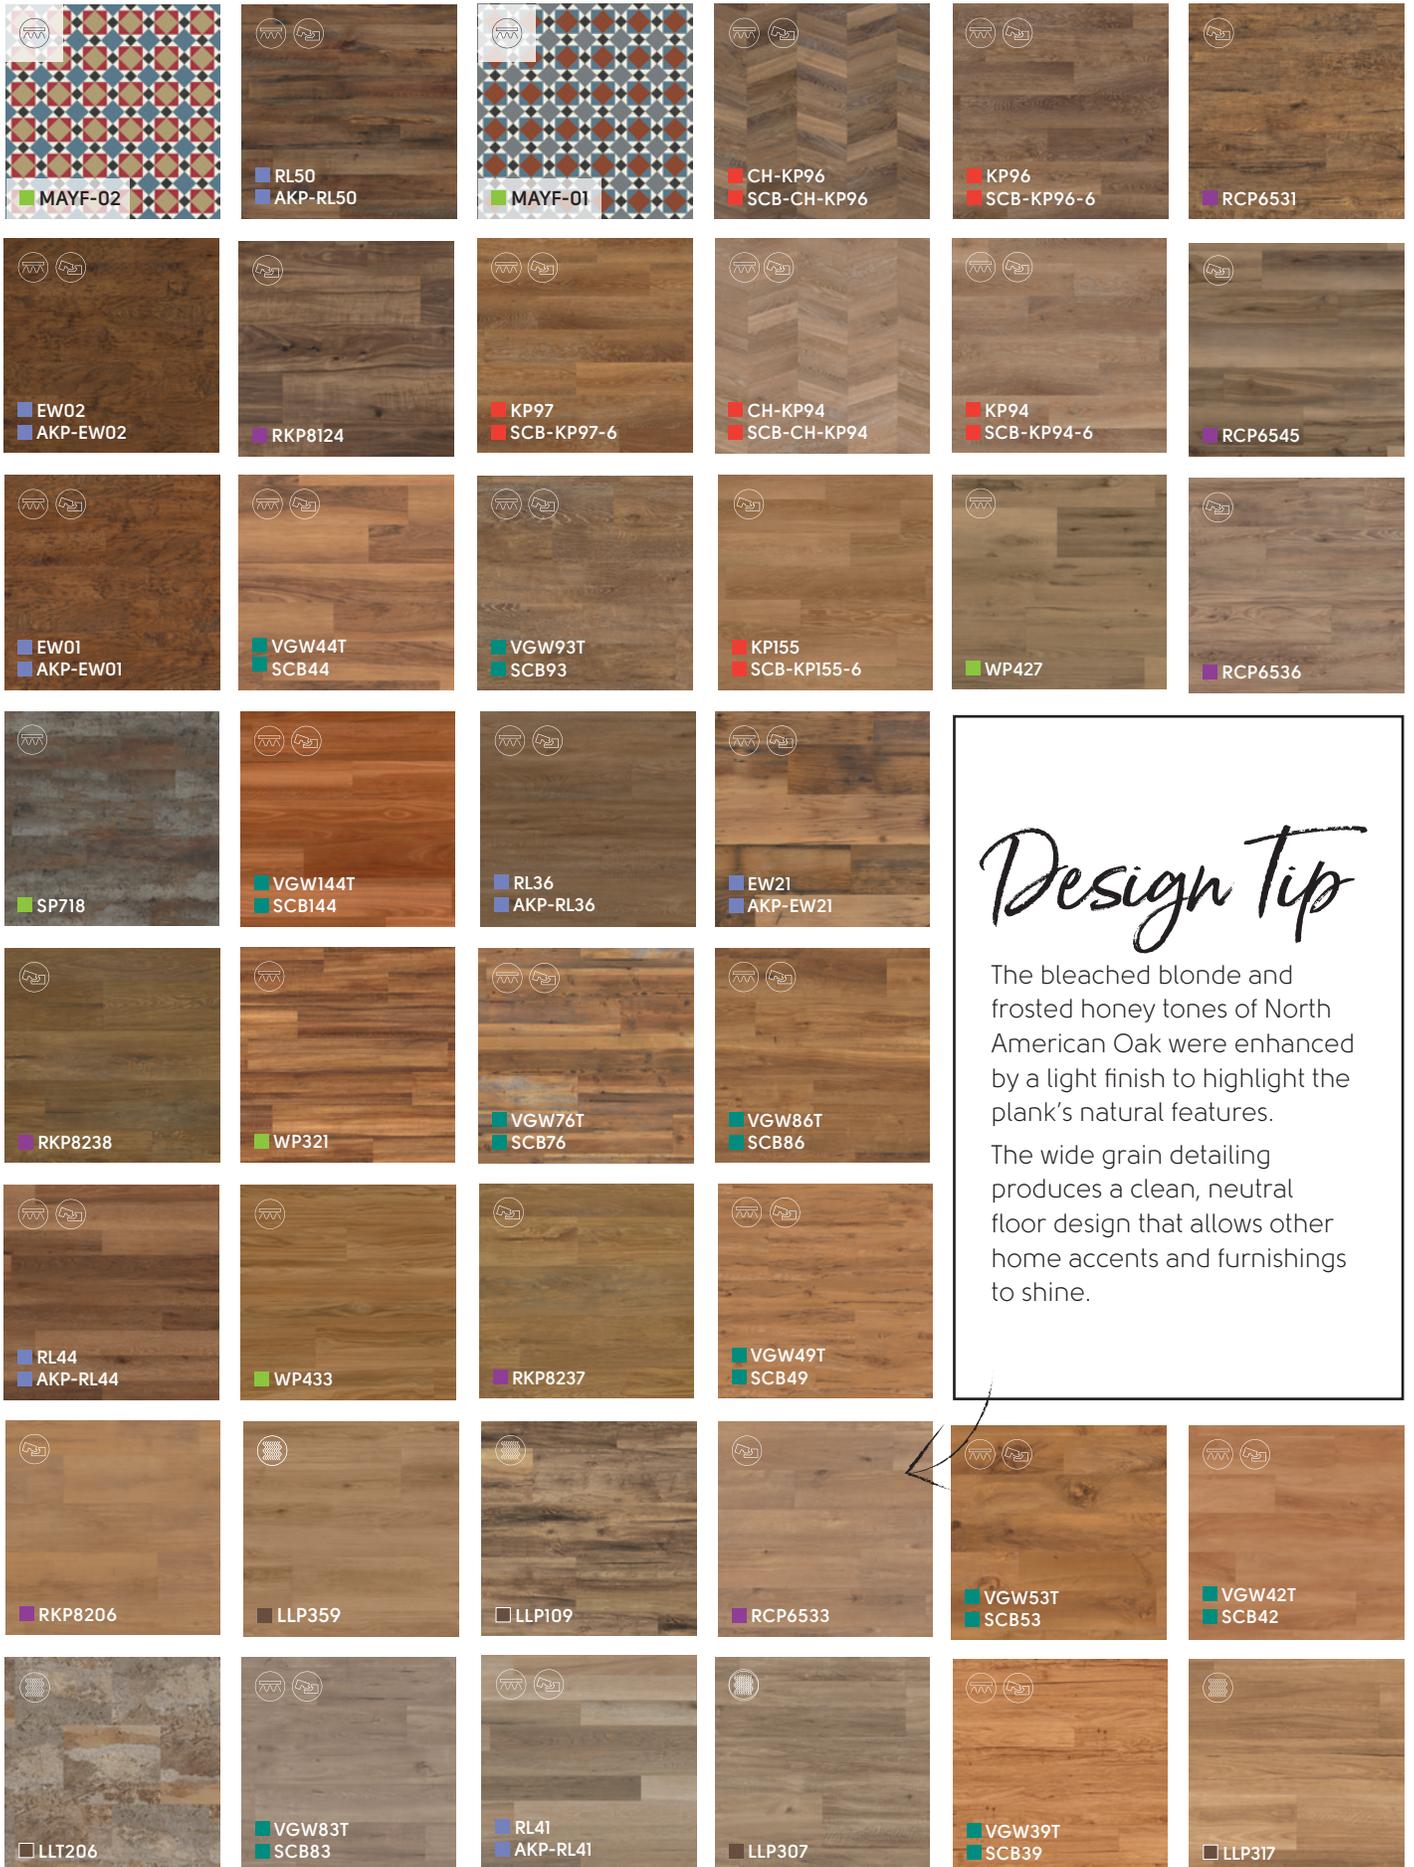

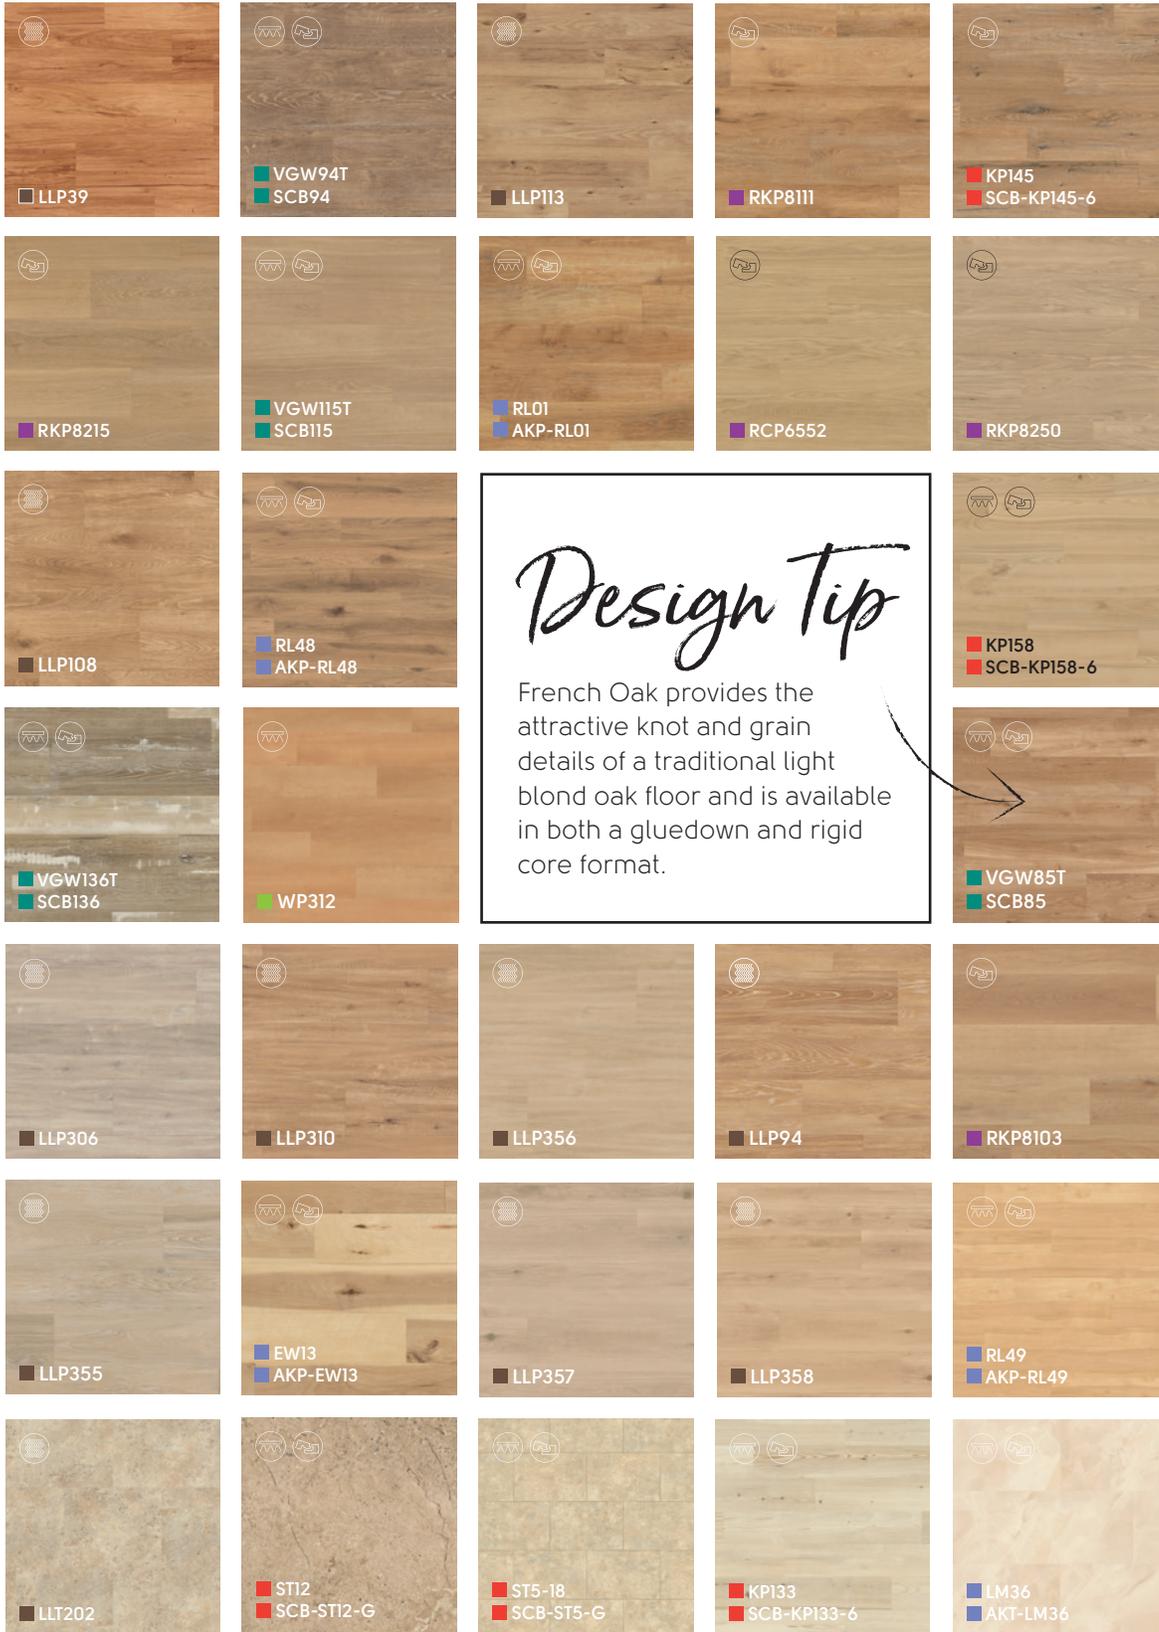

□ Marron Elm RCP6543

Design Tip

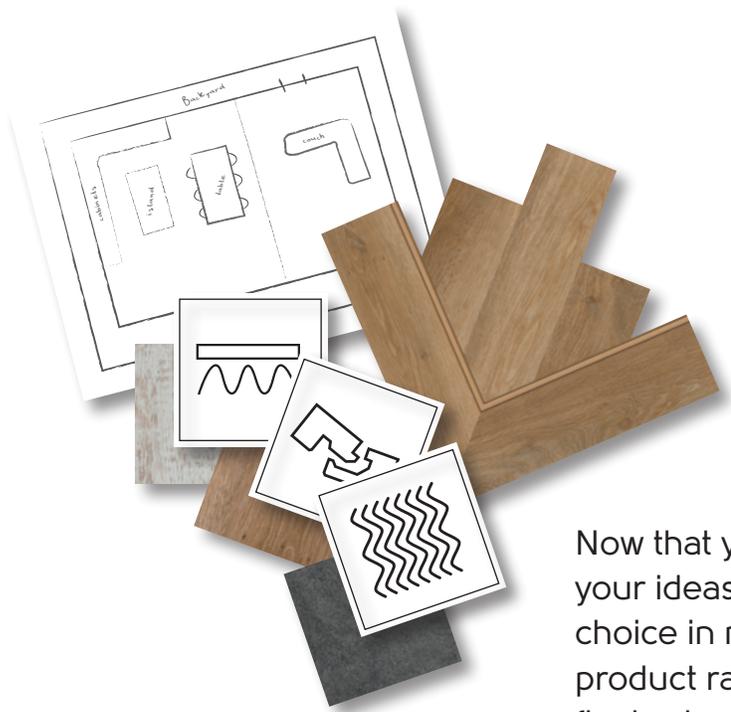

The bleached blonde and frosted honey tones of North American Oak were enhanced by a light finish to highlight the plank's natural features. The wide grain detailing produces a clean, neutral floor design that allows other home accents and furnishings to shine.

Art Select

RIGID CORE
GLUEDOWN

Inherently Beautiful and

Full of Character

EUROPEAN OAK

Karndean founder, Mike Walker, came across the original inspiration for these planks on a run through the Clent Hills in the UK, with his trusty Great Dane, Smokey. As the story goes, he took a second glance along his normal route spotting some men cutting down one of the trees deeper into the forest. Intrigued by the cracked and split aged wood, he stopped Smokey in his tracks and wandered towards the tree. He was fascinated by the markings and grains developed over hundreds of years of life. What we now know is that the rare grain patterns found in this particular tree were due to a unique combination of shallow soil and a dry micro-climate. The tree cutters, a bit surprised and confused, agreed that Mike could take the wood. He returned home, rallied a few friends to come out and loaded the massive log sections into a van to be worked into the beautiful floors you see today.

TRAVERTINO GEORGETTE

Travertine is a type of limestone that forms near mineral hot springs that give the stone its rich colouring. The natural stone features distinctive veining and small holes. The size and number of the holes determine the quality of the travertine. The color across the tiles is fairly uniform which makes it a great carrier within a space, with the floor able to support different interior décor schemes.

Woods with a

Soul and a Story

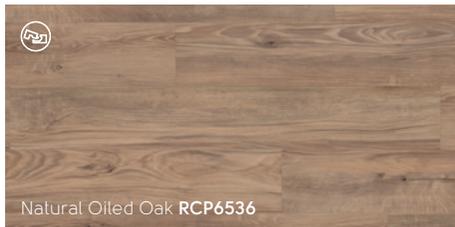

OILED OAKS

Applying an oil finish to woods adds depth and character and enhances the overall matte appearance. With just a light application, Natural Oiled Oak remains close to the natural yellow and red oak planks that inspired our design. For a contemporary alternative, look to Grey Oiled Oak.

CEDAR

Known for its durability and fragrance, cedar is commonly used in decking and furniture. Inspiration for our school cedar design came from a trip to the Pacific Northwest, where our team came across these reclaimed cedar boards that had been salvaged from a private school in San Diego.

Sought-after Designs Tailored to
Modern Trends

WALNUT

These fantastic nature-grade, American black walnut boards were hand-selected due to the beautiful warm tones. The wide 6" boards, which are uncommon and expensive in real walnut, allow the color to drift from chocolate browns to dark mauves - creating a fantastic natural tonal floor and a rich canvas for any interior.

LIMESTONE

After discovering a unique batch of limestone while visiting an English quarry, our design team used both faces of the stone to create two individual designs within one product. Initially etching the stone to create a bleached effect, we then used a high-pressure brushing process to uncover the stone's natural character. We fused these designs together to form what can also be interpreted as a concrete design.

SLATE

The design team went to a number of different quarries in the Lake District, England, and sourced volcanic slate by hand, selecting pieces of this 300-million-year-old stone. Each piece was individually unique in character, and the detail of the linear markings and fractured features of the stones really pair well with an active family space.

Mayfair MAYF-01

Cleaning and Maintaining Your Karndean Floor

Karndean Designflooring is durable and easy to look after. Unlike carpet, our hygienic floors do not hold dust, dirt pollen or other allergens. Our K-Guard+® enhanced surface treatment helps protect against everyday wear, spills and scuffs, giving you peace of mind that your Karndean floor will look great for years to come.

A regular sweep and mop with Karndean Clean or other pH neutral, fragrance free cleaner approved for use with vinyl floors is all you need to keep your Karndean floor looking its best and free of germs, including COVID-19. Visit the cleaning and maintenance section of our website where you can watch videos and view answers to frequently asked questions.

www.karndean.com/cleaning

Karndean Designflooring Floor Care Kits

Over time you may want to treat your floor to some extra care. Our Floor Care Kits contain Karndean Clean, Karndean Remove and Karndean Refresh solutions, and are available to order through your retailer.

Karndean Clean can be used for routine maintenance. We recommend using Karndean Remove and Karndean Refresh to rejuvenate your floor every six to twelve months, depending on wear.

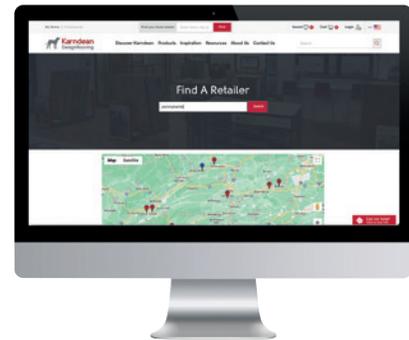

Grey Riven Slate ST16 with DS10 3mm design strip

Color & Pattern Reproduction

Our products are inspired by wood and stone from around the world. Just as variation in color and detail enhance the natural beauty of wood and stone, there can be similar variation apparent when our flooring is installed.

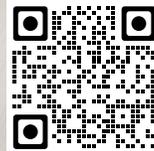

We continually enhance and develop our wood- and stone-inspired designs. As such, products can be discontinued. Please visit our website to confirm availability.

Karndean Designflooring owns all designs, which are protected by copyright.
